

Canadian Legion Re-Organized by Ex-Ser-vice Men Last Night

Meeting Unanimous for Re Organization of Local Branch and New Executive Appointed to Carry On

The Canadian Legion in Coleman was re organized at an enthusiastic meeting last evening in the council chamber, when the following officers were elected: Dr. R. P. Borden, president; Major R. F. Barnes, first vice-president; H. T. Halliwell, second vice president; A. L. Watkins, C. Devine, J. Houghton, executive committee.

Capt. G. L. Hudson, provincial organizer, of Calgary, gave a half hour address on the work of the Legion, and of the visit of General Ross, vice-president of the Dominion command, who recently visited the cities of Alberta to address the ex service men.

He reviewed the work accomplished by the Legion in securing more generous treatment for returned men in the way of pensions and adjustments for war services, and stated that there was still much to be done in seeing that provision was made for those who were handicapped or suffering from war services, as well as their dependents.

The British Empire Service League, of which the Canadian Legion was a unit, aimed at promoting unity among returned soldiers throughout the Empire, and since it had replaced the old G. W. V. A., a large number of branches had been reorganized throughout Canada, and in this province there had been a steady increase in membership. The deliberations of its Dominion conventions and the resolutions embodied at these gatherings were given close attention by the Dominion government, for the great majority of the public realized that the claims of the Legion were fair and deserving of consideration.

Capt. Hudson was extended a hearty vote of thanks for his visit, and for his assistance in re organization here.

The next general meeting of the branch will be held on Sunday, March 9, in the council chamber at 2:30 p. m., and all ex service men are invited to attend. In the meantime the executive will meet to plan further activities for the branch.

The membership fee, on a vote of the meeting, was fixed at \$3.50 per annum, this to include a year's subscription to "The Legionary," official publication of the Canadian Legion.

Comrades Jim Hadley, Bill Graham, Pete Smith and others of the former executive were present, besides many of the old members, and assured the meeting that they were heartily in support of the re organized branch and would cooperate with the new executive. Comrade Smith suggesting that a membership drive among ex service men be arranged.

West Canadian Band Concert

The West Canadian Collieries Band will give a band festival in Coleman under the auspices of The Salvation Army near the middle of March. Watch the paper for further announcements.

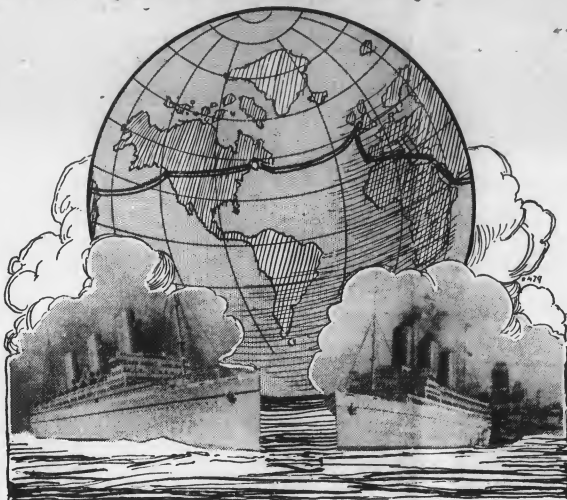

THE SALVATION ARMY

Captain Clifford Fowler and

Lieut. Jacob Zoutendyk.

Sunday Services, 11 a. m. Holiness meeting; 2:30 p. m. Sunday School; 7 p. m. Salvation meeting.

The Great White Fleet

Canadian Pacific Empire Liners on both oceans will all be painted white when the Atlantic ships, Empress of Australia, France and Scotland have been metamorphosed to this color. The Pacific fleet always was white and the new plant vessel, Empress of Britain, now building, will be white also. With the opening of the St. Lawrence season of navigation next April, the Canadian Pacific will possess the greatest white fleet in the world. The

ships are to retain the familiar buff-yellow funnels and ventilators and will have white upper works and a white hull relieved with a blue streak. Above is the artist's conception of the Empress of Britain when completed, shown on right with Chateau Frontenac, Quebec in background and the Empress of Japan, biggest ship on the Pacific. The ships were depicted by O. F. Pennington, marine artist of note and an officer in the Canadian Pacific service.

Young People Give Fine Entertainment

Pupils of Mrs. Salt Give Program of Singing, Dancing and Pianoforte Selections

Mrs. Salt's pupils gave a very interesting program last Friday evening in the K. of P. hall, and so many were anxious to see it that the seating accommodation was taxed to capacity, and many were unable to gain admission.

The choruses were particularly good, the children being attired in appropriate costumes, and the soloists performed their parts with ability and confidence. Little Miss Truba of Hillcrest possesses natural talent as a character artist, and her Chirice song was enthusiastically encored.

The grand finale, "The Wedding of the Painted Doll," was particularly pleasing, little Jane Borden representing the painted doll in a remarkably well designed costume, and with the natural curls of this little tot, the character was exceptionally good.

Mrs. Salt's efforts among the young people are deserving of commendation, and the success of their concert was gratifying to teacher and parents, and the general public.

The Program

Opening Chorus, "Broadway Melody"; Piano Solo, "Hanging Gardens"; Vivian Melced; Piano solo, "Curious Story"; Bob Borden; Chorus, "Japanese Love Song"; Piano solo, "Harvest Home"; Ralph Rippon; Piano solo, "Waltz in A Flat"; Margaret Stevenson; Chorus and Dances, "Walking Home With Angeline"; Piano solo, "Minuet in G"; Dick Borden; Piano solo, "Will-o-the-Wisp"; Lorraine Rippon; Hillcrest Girls Chorus, "Baggy Breeches"; Violin solo, Joe Jaske; Piano solo, "Grandfather's Clock"; Bobbie Dewar; Chorus, "Tiptoe Through the Tulips"; Matt Brennan, soloist; Piano solo, "Country Dance"; Prue Borden; Piano solo, "Legend of the North"; Isabella McDonald; Chorus, "Painting The Clouds With Sunshine"; Bobby Dewar, soloist; Piano solo, "Old Folks at Home"; David Smith; Chorus, "Bamboo

Fined for Assault

Bernard Zeistman and Frank Tarabula, charged with assault and causing grievous bodily harm to Andrew Peion, of West Coleman, on Feb 6, were each fined \$50 and costs by Magistrate Greenham in the local police court last week. The alternative was six months in jail. The fines were paid.

Capt. Barnes Gets Promotion

Ottawa, Ont., Feb. 27.—The promotion of Capt. R. F. Barnes to the rank of major and to command the 18th Field Brigade, Canadian artillery, of Lethbridge, Alta., is promulgated in militia orders posted at national defence headquarters here yesterday.

Organize Homing Club in Coleman

Promises to Furnish Interesting Sport for Pigeon Fanciers it Crows Nest Pass

Last year J. Anderson, Chas. Makin and A. Dewar entered pigeons in flights from Lethbridge and Medicine Hat to Coleman, which proved very successful, the birds returning home in remarkably good time.

Encouraged by the results, a club has been formed of which J. Anderson and A. Dewar are president and secretary, and the are already several members.

One member is importing two high-class birds from Belgium. The older birds of Mr. Anderson's were brought by him from Scotland, he having had considerable experience in handling carrier pigeons during the war, when they were used for carrying messages from France and also from air-pilots operating around the coasts of Great Britain.

Tree', Colored Comedienne; Violin solo, Joe Jaske; Piano solo, "Joy Ride"; Betty Beveridge; Vocal solo, "From the Land of the Sky Blue Water—That's All"; Chorus, "Hey Donald!"; Piano solo, "L'Avalanche"; Peggy Gillespie; Chorus, "Honeyuckle and the Bee"; Grand Finale, "Wedding of the Painted Doll".

Coleman Canadians Won at Staveley

In Play Off Series for Intermediate Championship Win by Score of 6-4.

6-4 was the score of Coleman in the play off game against Staveley at that town on Monday evening. W. Gate, defence player, scored four goals and Martini and Fraser each scored for Coleman.

Coleman team travelled the 100 miles to Staveley by car, and made a good trip. There was a good attendance at the game, and though Staveley made a determined effort to win, Coleman team proved too strong.

The next of the series is scheduled to be played between Medicine Hat and Coleman.

Lineup of Teams

Coleman—Goal, V. Colagrosso; defence, W. Gate, F. Vajprava; forwards, J. Fraser, V. Litya, G. Jenkins; subs, G. Martini, O. Kubin. Staveley—Goal, A. Allan; defence, Stickie, Haynes; forwards, M. Jenkins, J. Dorsey, A. Rae; subs, Doyle, Bouzayn, Derochie. Officials—McInnes, Staveley, and Storey, Nanion.

Canadians vs. Monarchs

Coleman Canadians leave to-night for Medicine Hat to play the Monarchs in the semi-finals for the Intermediate championship of Southern Alberta. A double header will be played on Friday and Saturday nights.

Rev. Mr. Currie Ill

Since last week the Rev. A. D. Currie has been laid up with an attack of pneumonia, and on Sunday at Blairmore and Coleman the services were conducted by the Rev. Mr. Barlow, of St. Cyprian's Indian School, Brockton. Unless notice is otherwise given, the service at St. Allen's on Sunday will be at 11 a. m., when Mr. Barlow will officiate.

Henry Tibarghien was readmitted to hospital on Monday.

District Agreement With Operators Will Be Sought

Head of Mine Workers Union of Canada Appeals to Government for Relief

Frank Wheatley, president of the Mine Workers' Union of Canada, in an interview here today said he was not anticipating a strike on March 31 when the existing agreements with the operators terminate. He said the union would ask for a district agreement, that is, an agreement applying to all camps where the Mine Workers' Union of Canada is organized. The membership of the Canadian union has now reached 5,000. Mr. Wheatley said that negotiations will be opened with the operators the first of March.

Situation Serious

Referring to the depression in the industry, the union head admitted that the situation was serious in some camps. A sub district meeting had been held over the weekend at Shaughnessy, when relief measures were discussed. A hundred miners of the Cadillac Coal

Company had been laid off and their families were in urgent need of relief. There were also cases in need of help at Coalhurst.

Appeal to Government

An appeal has been sent to Premier Brownlee, Mr. Wheatley's wife being as follows:

One hundred employees of the Cadillac Coal Company, Shaughnessy, have recently been dismissed. Due to the short season's work and their inability to obtain credit with merchants, many families are in actual want.

Representatives from Lethbridge miners workers respectfully ask that your government investigate the circumstances of these families with the view of establishing some measure of relief.—Lethbridge Herald.

Winners Will Play Lacombe

The winners of the games between Coleman Canadians and the Monarchs will play in the finals at Lacombe next week to decide the Intermediate hockey championship of Alberta.

Roll of St. John Ambulance Association Local Branch

A first aid class of this association was commenced on December 8, 1929, with Dr. Borden and Dr. Arnett as lecturers and Dr. J. B. Rose, examiner.

The following were enrolled in the class; and the result of the examinations held on February 9, is given:

For Certificate

A. Fauville, J. H. Hirst, G. Waymon, O. Celli, R. Anderson, M. Celli and B. Bond.

For Voucher

A. J. Phillips, J. Kilgannon, P. Oliva, J. Rushton (jr.), M. Cornett, G. F. Derbyshire, H. Hubert and J. Yates.

For Medallion

A. Vejprava, J. Goulding, G. A. Brown, H. Chamberlain, H. J. Dunlop and W. Hibbert.

For Label

A. E. Corney, W. J. Cousins, D. Oliva, E. Hill, H. Parkinson, E. Hill X and N. Fleming.

W. McGrath is on the sick list this week.

They Are Fading Away

Do you remember the old wartime song, and how it used to go: "Old soldiers never die, they only fade away"? It used to have a gay, ironic tone about it, as it was sung by laughing lads who were on their way to the business that was done in the Old Salient and down Vimy way. Well, it seems there was a touch of something else about it. It seems that the old soldiers of that war, quite a lot of them, are finding the business of fading away not without its own story now. In fact, to come right home to Vancouver, it seems they need more room for the old soldiers who are fading away up at Shaughnessy Military Hospital—Vancouver Province.

Junior Hockey Club Dance

The Junior hockey team will hold a whist drive and dance on Friday, March 7th, for which the admission is 50c including the dance. The boys have done well this season and deserve the support of all who desire to encourage them in their efforts.

The best way in which to acquaint people with news of local stores and goods and prices is by advertising in the local newspaper. The ads, as well as the news are of interest to customers.

The True Spirit

At the first showing at Ottawa of the moving picture record of the great Boy Scout jamboree, held in England last summer, in which 50,000 boys from all parts of the world participated, His Excellency, the Governor-General, Lord Willingdon, in an introductory speech, spoke to the Boy Scouts and Girl Guides present "very particularly and in all seriousness," saying:

"You, young as you are, must know, we all know, that since the years of the Great War, all the nations of the world have been striving by conferences, by pacts and agreements, and by personal negotiations to get rid of the terror of future warfare. The League of Nations has during the past ten years done a great and noble service to secure this end. But I am inclined to feel myself that this younger League of Nations is the most hopeful organization to achieve what we are striving for.

"Under this association you are all growing up filled with the spirit of goodwill and good fellowship to all others, to do your good turn each day to one another, in whatever country your future work may find you, whatever the race and colour of that other may be. I beg of you all to let that spirit guide you in your future lives, for it is by that spirit which teaches us to think well and not ill of our neighbour, that we shall in time attain our great goal, peace among the nations of the world."

These words of His Excellency are most timely because, if there is any one thing calculated to nullify the efforts of statesmen in all countries, destroy the unifying work of many organizations, and bring to naught the prayers of millions of people, it is the persistent and poisonous propaganda of a few evil-minded persons who see gain for themselves, or temporary advantage for some cause they espouse, through the division of peoples and nations along racial and religious lines, and the cultivation of feelings of suspicion, ill-will, and antagonism among and between them.

It is probably too much to hope that those individuals who are serving their own selfish ends by such unpatriotic conduct at home, and destructive of peace and brotherhood abroad, will cease from their evil ways. They are fully alive to the harm they are doing, but that counts for nothing with themselves. But there are bright hopes for the future if the boys and girls of today learn the better way, and in the activities of everyday life emulate the life and example of the Great Teacher who went about doing good to all men, who taught men that love is better than hate, who refused to recognize any distinction between men of different races or creeds, but emphasized at all times the common brotherhood of man and Fatherhood of God.

Just as the serpent brought evil and discord into the first Garden of Eden, so do the serpents of today in many disputes seek to keep alive all the ill-will, suspicions, prejudices and passions engendered in the bygone years of a less civilized era in the world's history. These fermentors of strife at home are the first line of defence maintained by those who desire for gain to keep the nations armed to the teeth, and who foment and precipitate wars.

The League of Nations is striving with every means at its control to allay racial suspicions and ill-will. While engaged with practical problems of disarmament, and other concrete causes of strife, the League is devoting possibly even more attention to educational influences. The efforts made to raise the status of women and children in backward countries, to improve labor conditions everywhere, to put an end to white slavery and the traffic in narcotics, all have as their underlying object the removal of causes of friction, misunderstandings, and ill-will among people, and the development of a spirit of world brotherhood. The Balkans have long been recognized as the danger spot of Europe, and the reason is found in racial and religious suspicions and prejudices. Once these can be allayed, peace in Europe will be largely assured.

Lord Willingdon sees in the Boy Scouts and Girl Guides one of the most hopeful movements for future world peace, while Sir Philip Chiba has declared that the Junior Red Cross in banding the youth of all nations under the common banner of service for humanity, offers the most hopeful sign of the dawning of a better day. The Y.M.C.A. is engaged in the same work among young men of all races, colours and creeds.

Evil-minded men may stir up strife for a time here and there; they may appear to reap a measure of success; but it is temporary, and when the passion of the moment subsides, and people realize how they have been fooled for an ulterior purpose, it will be found their actual achievements have been nil. Hate may influence people for a time, but love in the long run will conquer. It always has; it always will, for love alone is enduring.

Co-Operative Packing Houses

Plans For Establishment Of Three Plants Are Under Way In Alberta

Co-operative packing houses in Lethbridge, Calgary and Edmonton are projected by the Alberta Livestock Pool, and plans for the establishment of a trio of plants are under way. The idea of a centralized co-operative plant at Calgary is said to have been abandoned in favor of the three plants serving the southern, central and northern sections of the province.

Manitoba produced butter, cheese, milk, ice cream and sweet cream to the value of \$14,997,651 last year.

When Pain Comes

What many people call indigestion, very often means excess acid in the stomach. The stomach nerves have been over-stimulated, and food sours. The corrective is an alkali, which neutralizes acids instantly. And the best alkali known to medical science is Phillips' Milk of Magnesia. It has remained the standard with physicians in the 50 years since its invention. One spoonful of this harmless,

tasteless alkali in water will neutralize instantly many times as much acid, and the symptoms disappear at once. You will never use crude methods when once you learn the efficiency of this. Go get a small bottle to try. Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any druggist.

New Material For Ships

Will Make Vessels Practically Unsinkable, Says German Inventor

While the delegates to the five-power naval disarmament conference in London, are trying to limit or reduce the navies of the world, a German inventor named Franz Felder, demonstrated a new material for ship-building that is alleged to enable warships to carry twice as many guns as they could normally, and to make them practically unsinkable.

Herr Felder displayed the buoyancy of his patented materials with model ships. One of them, which was a yard long and a foot wide, supported a load of 120 pounds, while a wooden model of the same dimensions went to the bottom of the water with a similar load.

The inventor hopes to build a motor ship to show the possibilities for the use of his materials in the carrying of commercial cargoes.

ARE YOU RUN DOWN AND NERVOUS?

All That Is Needed Is A Tonic To Build Up The Blood

There are thousands of people who really find a life burden. They have endured nervousness, sleeplessness and a general run-down feeling so long that they have given up hope of again enjoying good health. Rest is a blood-building tonic, and it is that which is required to restore health and vitality. Such a tonic is found in Dr. Williams' Pink Pills. The doctor recognized the world over as a wonderful blood-builder and nerve restorer.

Mrs. F. C. Granter, Toronto, Ont., bears testimony to the worth of these pills. She says: "Five years ago, after a life of perfect health, I became ill. Not seriously at first, just no appetite, no pep and no sleep. I gradually grew weaker. I became pale and listless; my arms and feet were badly swollen and although I doctored all winter my condition did not improve. In the spring I went to see a specialist and he sent me to the hospital where I remained for several weeks. I left the hospital in worse condition than when I entered it and went home a nervous wreck. I remained ill at home all summer and entered the hospital again in the fall where I was under the observation of three weeks and although everything possible was done for me I did not improve. My condition was so bad that I finally decided to try a friend advised me to take Dr. Williams' Pink Pills as a blood builder. I do not know how I first noticed an improvement in my condition. It seemed to come to me gradually. I began to sleep better; my appetite improved; my nerves were being eagerly awaited and enjoyed. I began to show an interest in the world again. My color came back to my face. My strength to my limbs. I persisted in the use of the pills and soon I was well and happy again. That is five years ago and ever since I have been able to do all my household work and have not had the least return of my former trouble."

If you are feeling run down get Dr. Williams' Pink Pills a fair trial and new health will be yours. You can get them from any druggist, dealer or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Seed Cleaning Train

Two Cars Will Tour Saskatchewan During Month Of March

The Saskatchewan Department of Agriculture in co-operation with the Canadian Pacific Railway is operating a seed-cleaning train of two cars which will tour the province, beginning March 8th. Seed cleaning machinery will be explained and demonstrated, and addresses and discussion will feature the visits of the train to the various rural centres. The slogan of the occasion is—"Sow clean seed; grow less weeds."

Dread Of Asthma makes countless thousands miserable. Night after night the attacks return and even when brief respite is given the mind is still in torment from continual anticipation. Dr. J. D. Kellogg's Asthma Remedy changes all this. Relief comes, and at once, while future attacks are ward off, leaving the afflicted one in a state of peace and happiness he once believed he could never enjoy. Inexpensive and sold almost everywhere.

Bull Fighting In Spain

The 1930 bull-fighting season will be inaugurated in Madrid, in the old Plaza de Torres, but in April the new Plaza will be dedicated. The new arena seats 28,000 persons, or double the capacity of the old one, and one of the first fights to take place there will be a benefit for the University City (Ciudad Universitaria), now under construction.

Edmonton Stock Yards

During the year 1929, a total of 3,739 cars of livestock were received by the Edmonton Stock Yards Limited, compared with 3,660 the year before. In the year 1929 the yards received fewer goats, sheep and horses shipped but more cattle and calves.

Interpreters At Geneva

Speeches Have To Be Translated Into English and French

Dr. Caroline MacDonald, of London, Ontario, who has spent many years in Tokio, in social service and prison reform work, last year accompanied the Japanese labor representative to the International Labor Conference in Geneva, as interpreter. "This was no easy task, the Eastern and Western languages differing so radically. During the ten days' preparation in Geneva for the great conference, which lasted three weeks, Dr. MacDonald had to translate all speeches from the Japanese to the English, and English and French were official languages to be used, and following the address of the Japanese representative, she interpreted the tribune and gave in English to the non-Japanese speaking section of the audience.

The interpreters at Geneva are the eighth word of the world, says Dr. MacDonald. By an ingenious arrangement of telephones in the hall of meetings, interpreters of the speaker's language into two or more languages follow one sentence after the actual delivery. Telephones were at each desk, and each member dialed on whatever language they wished to hear.

Having Faith In People

Life Would Be Miserable If We Distrusted Everyone

Although faith in people gets a severe shaking at times, it is never destroyed. If it were, it would be a miserable thing to try and carry out.

Imagine having to regard as a crook every man with whom you have dealings until he has proven himself to be reliable. You wouldn't want to have any person visit you in your home under that sort of an atmosphere; you wouldn't want to place an order for merchandise over the telephone; you wouldn't want to go to a lodge meeting or become identified with any other organization.

The great overwhelming majority of people are honorable; they will deal fairly with you; very many of them will go out of their way to try and help you along. If it were not so existence would be a miserable thing indeed.

One of the most effective vermin-fuges on the market is Miller's Worm Powders. They will not only clear the stomach and bowels of worms, but will prove a very serviceable medicine for children in regulating the infantile system and maintaining it in a healthy condition. There is nothing in their composition that will injure the most delicate system when directions are followed, and they can be given to children in the full assurance that they will utterly destroy all worms.

Chinese Chickens Fatter

Many restaurants in New York who buy chicken in great quantities are saving them sent over from China. The breast of the China chicken is much larger than the breast of the American one. It seems in the almond-eyed country they feed them better than they do here and consequently there is more meat on the bird. They are being shipped to New York by the carload.

For Catarrh.—It is one of the chief recommendations of Dr. Thomas' Electric Oil that it can be used internally with as much success as it can externally. Sufferers from catarrh will find that the Oil when used according to directions, will give prompt relief. Many sufferers from this ailment have found relief in the Oil and have sent testimonials.

Colonel, inspecting barracks: "Supposing the barracks were to catch fire what would you do?" Bugler: "Sound me bugle, sir!" Colonel: "And what call would you give?" Bugler: "Cease fire, sir."

Minard's—50 Year Record Of Success.

Manitoba Poultry Pool
Thirteen million dozen eggs were marketed in 1929 by the central selling agency of the Manitoba poultry pool, according to a statement at a meeting in Winnipeg. Membership in the pool is 14,000.

Russia Is Purchasing

Cattle In Uruguay

Soviets Are Anxious To Repopulate Greatly Diminished Herds

Soviet Russia is looking to Uruguay to repopulate her heavily diminished cattle breeding industry. She has contracted with a Russian agrarian, long a resident at Montevideo, to tour the Soviet Republic lecturing on the cattle industry as practiced in Uruguay. At the same time the Soviet has purchased 200 Uruguayan Hereford bulls for reproduction purposes and indicates she may buy as many as 100,000. For animals from two to three years old the Soviet is paying an average of \$180.

Argentina's vast cattle industry is based on the importation of British thoroughbred short horns. Uruguay's cattle herds were fattered by American Herefords, which were found better suited to resist ticks and other Uruguayan cattle diseases, as well as the particular climate. Soviet Russia is therefore using grandsons and great-grandsons of animals which first saw the light of day on American prairies.

Life Saved By Hymn

British Soldier Suspected Of Being a Spy, Had Narrow Escape

How a British soldier escaped death as a suspected spy at the hands of the French by singing a hymn, was related to the Chapel-en-le-Frith (Derbyshire) Board of Guardians.

The man Joseph Davidson, who had sought relief during a recent disposition, served with the Expeditionary Force in France during the war. He was taken prisoner, and after spending 2½ years at various camps in Germany escaped into the French lines. Here inquiries were made about Davidson and the information was received from the British G. H. Q. that the man had been killed in action.

The French promptly ordered him to be shot as a spy, but a few hours before the firing order was ordered out, a wounded British soldier asked Davidson if he could sing. He sang "Auld With Me," and this so impressed his captors, that they made further inquiries, and eventually released Davidson.

Persian Balm appeals instantly to the dainty woman. Stimulating the skin, making it velvety soft in texture. It creates and preserves complexions of exquisite charm. Delicately fragrant. Cool and delightful to use. Especially recommended to soothe and dispel roughness or chafing. Stimulating and invigorating. Imparts a youthful loveliness and protects and enhances the skin's delicately-textured skin. Persian Balm is the unrivalled toilet requisite.

Odd Use For Eggs

You might not know it, but the same eggs you use for cooking are used for tanning gloves, and this industry is the cause of importing more than 800,000 eggs a year into England. Only the yolk of the egg is used in the tanning process.

There are, at present, only two places in Europe where the accordion is not despised—Scotland and Belgium, the latter country possessing 40,000 accordion players.

Chest Colds

Need Direct Treatment

It is an obstinate cold indeed that can resist the direct double action of Vicks. Rubbed on the chest, it acts 2 ways at once:

- (1) Direct to air passages with its healing vapors released by body heat;
- (2) Direct, like a poultice, it "draws out" the soreness.

An Unusual Picture

Sunset On Moon Taken With Motion Picture Camera

Motion pictures showing sunset on the moon was one of the features of the annual exhibit of the Carnegie Institution, of Washington. The film was made at the Mt. Wilson Observatory, in California, with a motion picture camera attached to the great 100-inch reflecting telescope. Like the earth, the moon rotates, thus causing the sun to rise, cross the sky and set, but as the moon takes twenty-seven and one-third days, instead of twenty-four hours to rotate, lunar sunrise and sunset are more leisurely than the earthly variety. Because there is no atmosphere on the moon, there is no twilight, and the sunset represents a sharp change from brilliant sunlight to darkness, instead of the gradual diminution of light on the earth. The film shows the shadows of the lunar mountains crawling across the surface. The actual time occupied in the taking of the film was five and one-half hours, but it is speeded up in projection, and runs through in a minute and a half.

A Dog's Paradise

Not a single flea exists in the South African town of Pretoria. Scientists working on a plague prevention survey of Africa, conducted wide researches for the elusive insect but in Pretoria none were found. It is on the Karroo prairie. Pretoria is now boasting itself as the "plague-proof" town, and dogs of all nations look upon it as paradise.

Whether we pronounce radio—radio or raydio, or work work or wurk, there will always be plenty of either and eyther.

BRILLIANT RITES AT OPENING OF FEDERAL HOUSE

Ottawa.—The fourth session of the 16th Parliament of Canada was opened with the ancient rites and ceremonies attendant upon this feature of the political life of the country. The Speech from the Throne forecast little in the way of expected legislation and was in no sense a controversial document.

There is nothing in the speech likely to occasion a prolonged debate on the address in reply, but the gossip around the corridors indicates that this debate may extend over a week or two. In recent years the debate has been disposed of in two days at most, but this year many private members have prepared speeches and will participate in the discussion, if the party whips do not exercise a restraining influence.

The speech itself refers to the prosperity of the country, the advancement of foreign trade by the appointment of new trade commissioners and the opening up of new steamship services. The progress being made on the great public works of the Dominion is alluded to, the Hudson Bay Railway is now nearly complete; the Welland canal soon will be open to shipping, and the new lower lake terminal at Prescott rapidly in taking form.

The speech was drawn carefully to leave the government uncommitted on the radio broadcasting report. This report, it is stated, will be submitted to parliament. The report of the commission on the salaries of mechanical workers also will be tabled.

In the way of legislation, the speech forecasts the bills to ratify the natural resources agreements with Manitoba, Alberta and British Columbia, the revised Canada Grain Act, a bill dealing with the National Railways and other bills amending the Elections Act, the Bankruptcy Act, the Companies Act and the criminal code.

Record Entry For Manitoba Winter Fair

Officials Are Looking For Additional Stabling Accommodations

Brandon, Man.—Another record making entry has caused the officials of the Manitoba Winter Fair to look around for additional stabling accommodations. A year ago every available inch of space was used in the arena buildings to take care of the livestock entries, and some departments were cramped even after some of the stock had been taken care of in outside barns.

It is expected that the Hon. T. A. Cramer will open the show. If the new Minister of Railways, and member for Brandon, can leave Ottawa even for a short time in March, he will probably attend the opening of the exhibition.

Explorer Sails For Home

Byrd Has Spent More Than Year In Arctic

New York.—The New York Times, the St. Louis Post-Dispatch and the newspapers affiliated with them in publishing reports from Rear Admiral Richard E. Byrd's Antarctic expedition, announce that Admiral Byrd and the members of his expedition, after spending more than a year on the ice barrier of Ross Sea, has broken camp and sailed homeward from the Bay of Whales, aboard the barque the "City of New York."

They are bringing back essential papers and gear, but their aeroplanes and much material it has been necessary to leave behind.

Enters In Dog Derby

Indian Musher Will Be Competitor In Annual Event At The Pas

The Pas, Man.—Donald Flett, one of the best known Indian dog mushers in the north, will be an entrant in this year's Pas dog derby, starting March 4, according to word received from the Splitlake area where Flett resides. Flett did not enter the 200-mile race last year as he did not have enough dogs in training, but he was a competitor in the eight races. The Indian racer is expected to reach The Pas a week before the big event in order to put his team through its final stages of training.

Chair Of Business Administration

A chair of business administration in the University of Manitoba is favored by about 1,000 members of the university alumni and Winnipeg Board of Trade members.

W. N. U. 1820

Drive Against Orientals

White Canada Association Asks B.C. Government For Campaign Fund

Victoria, B.C.—The British Columbia Government was asked to accredit the practicability of the removal from the country of all Asiatics and expropriation of all property owned by them upon payment of compensation.

In arguments presented before the committee of the advisory board of the legislature, it was stated that the elimination of the Oriental from British Columbia was the most pressing matter before the people today, and that the situation was grounds for a grant of \$5,000 to the White Canada Association for a campaign fund to carry on an agitation for revision of British treaties which now bar restrictive local legislation.

The matter was brought before the committee of the advisory board of the Farmers' Institute, and was spoken to at length by A. B. Smith, of Cranbrook, secretary of the advisory board; C. E. Hope, of the White Canada Association, and J. P. Hampton, B.C. grand factor of the Native Sons of British Columbia.

It was declared that the whites could compete with the Chinese but that the Japanese were another matter. Severage of competition caused the whites to drop out of the contest, it was declared by Mr. Smith. He said, however, that there was no lessening of output, but an actual increase as Orientals took up slack production.

"To them, it is a profitable business," he said, "they have less overhead, work longer hours and are willing to work the whole family."

Mr. Hope asked the province to persist in re-enacting disallowed legislation until some action was attained. He advised placing pressure on Ottawa towards attaining a redrafting of treaty arrangements. Such redrafts would be acceptable to Japan, he believed, if they were on a basis of exact mutuality.

Will Request Change In Banking System

Western Members Of Federal House Have New Plan

Ottawa, Ont.—Western members of parliament gathered in the capital for the opening of the session, are keen to get on with public business and in many cases will endeavour to get parliamentary approval of important reforms.

Perhaps the most coherent objective among western members is to bring about a change in the banking system, whereby a federal bank of discount would be set up and the present discount activities of the treasury board would be curtailed, if not discontinued altogether.

The Alberta members are particularly desirous of getting action along these lines. It is held that the general credit situation and the gold position in recent months has proved the inefficiency of the present banking system and the need of a change.

Will Use King's Cutter

Famous Racer Britannia To Test Speed Of Lipton's Challenge

Portsmouth, Eng.—King George's famous racing cutter "Britannia," will be specially commissioned to sail against Sir Thomas Lipton's new challenger for the America's Cup—the Shamrock V—in the Solent. The date for the test has not been set, but probably will be arranged so His Majesty may attend. The Britannia is one of the fastest boats in the English waters.

Registered Mail Stolen

London, England.—A hundred registered letters, mostly containing money orders and bills of exchange, were stolen from a postal bag which left Montreal on February 9, aboard the "Doric," and was sent by train from Queenstown to Belfast via Dublin. The theft was discovered at Belfast. The seals of the letters were found to be broken, but the bag had been re-tied.

Granted Incorporation

Winnipeg.—The Scandinavian Colonization Association, an organization which will aid and assist in bringing immigrants to Canada from Norway, Denmark and Sweden, has been formed, under the presidency of H. P. A. Hermanson, Winnipeg. Headquarters of the association, recently granted incorporation by the Dominion Government, will be in Winnipeg.

Bars Women From Law

Quebec, Que.—The bill designed to amend the statutes so that women might be admitted to the practice of law in the province of Quebec, was defeated in the legislative assembly by a vote of 37 to 29.

Wins New Honors

Coast Astronomer Awarded Medal For Distinguished Work

Victoria.—Dr. J. Plaskett, director of the Dominion astro-physical observatory, has received word that he has been awarded the Rumford medal, given by the American academy of arts and science for distinguished work in astronomy.

The last recipient of this honor was Professor Arthur Compton, of Princeton, winner this year of the Nobel prize.

The Rumford medal will be presented to Dr. Plaskett at Boston, on April 8, when he is en route to England to address the Royal Astronomical Society and receive his gold medal, recently awarded him for his remarkable studies in stellar movements and the scientific conclusions which have been made possible by his labors.

Would Give Power To States

Association Is Against Prohibition Amendment, Demands Its Repeal

Washington, D.C.—Outright repeal of the Eighteenth Amendment and a transfer to the states of the power to regulate intoxicating liquors was demanded by witnesses before the house judiciary committee which after a recess of several days has returned to the hearing of testimony for a change in the dry laws.

William H. Stayton, chairman of the board of directors of the Association Against the Prohibition Amendment, asserted people throughout the United States had lost respect for the government because of the prohibition law, and because it had lost its efficiency.

WHEAT POOL TO BE ESTABLISHED IN AUSTRALIA

Canberra, Aus.—A great wheat pool will be established in Australia. There is some difference as to whether it will be a Government-controlled body, or under the direction of the wheat growers themselves. But there is little doubt that a Commonwealth wheat marketing body will be in operation in a comparatively short time.

A great conference between the Commonwealth and State governments, and the Wheat Growers' Association, decided on the Pool. The Federal Government wants it to be under government control, with a state board in each state operating under a commonwealth board at Canberra, on which the state boards would be represented. The wheat growers want it to be under control of the farmers.

The real difference, however, centres around the government guarantee of a stabilized price for the farmer. The government offered to guarantee 96 cents a bushel for wheat delivered at country sidings, the equivalent of \$108 a bushel f.o.b., for one year only. The wheat growers asked that this guarantee be extended to cover three years. Hon. Parker Macleay, Federal Minister of Markets, said the government could not agree to extending this guarantee until it was seen the scheme for an Australia-wide wheat pool was in operation.

But when the pool is established and is working satisfactorily, the government will favorably consider the suggestion of extending the guarantee of price, the minister promised.

JEWEL VALIQUETT AND ROBERT CLIFFE WITH THEIR PET HUSKY

Here is shown Jewel Valiquett and Robert Cliffe with their pet husky dog, as they appeared at the first international winter carnival at Ottawa.

WINS GOLD MEDAL

John Johnson, chief superintendent engineer of Canadian Pacific Steamships whose paper "The Propulsion of ships by modern steam machinery" has been awarded the gold medal for 1929 by the Council of the Institution of Naval Architects.

Discuss Peace River Outlet

Private Company Asks Alberta Government For Permission To Build Line

Edmonton.—If the Canadian National or Canadian Pacific Railway companies jointly or individually, will undertake to build a new northern line giving the much desired Peace River outlet to the coast, information to that effect will be appreciated by the legislature; otherwise there is a fairly good chance of a charter being granted to the Beaver Lodge Narrows River Railway Company, which is asking permission to construct a line through the Gray Pass, it was revealed here. The bill to incorporate the company was before the railways committee of the house, and given a thorough discussion, the outcome being that C.N.R. and C.P.R. officials said to be asked to attend at a future sitting of the committee and state what objections, if any, and what intentions, if any, or both of the transcontinental roads may have, in the matter.

Royal Wedding Postponed

Rumanian Princess May Break Engagement To German Count

Zucharest.—Postponement of the wedding of Princess Helena, of Rumania, and Count Alexander von Hohenberg, is the only official answer in Rumania to reports that their engagement, which the princess herself announced some weeks ago, had been broken off definitely.

Premier Manthorpe said the government was investigating the antecedents of Count von Hohenberg, in Germany, and was seeking further information about him. If the Rumanian Government found anything reflecting dishonor upon the count, it would intervene and advise against the maintenance of the engagement.

Worried By Dogs

The Pas.—Mongrel hunkies, roaming the streets of The Pas during the winter season, are alarming citizens of the northern town. Their latest attack involved the mauling of William Hinchuk, 10, in front of St. Anthony's hospital. A passing priest saved the lad from serious injury. Three other cases of canine onslaught have been reported by hospital authorities.

Applying For Charter

High Speed Road Bill Is Again Before Alberta House

Edmonton, Alberta.—Supported by an influential petition containing the names of over 5,000 residents of southern and central Alberta, the bill for a charter incorporating Alberta Trackways Limited, comes before the Alberta legislature this session for the third time, sponsored this year by Donald Cameron, U.F.A., Innisfail.

The bill provides for the incorporation of a company which undertakes to lay concrete highways of not less than 18 feet in width, from Edmonton to Calgary, from Calgary to Banff, and from Calgary to Macleod, Lethbridge and Coutts.

Construction of the trackways is to be commenced within two years, and completed within five years of the securing of the charter.

The idea back of the plan is for a system of safe, speedy, all-weather highways, constructed of concrete between the points indicated, which would enable auto drivers wishing to make the best possible time between these points, to travel on the trackways instead of on the slower and more tortuous provincial highways.

A small toll would be charged each car for the privilege of driving over such trackway, and, according to the promoters, such toll would more than be offset the saving in gasoline, wear and tear on car and tires, saving of time, etc.

The promoters are D. F. Whitney and W. D. Milner, of Calgary, and J. W. McDonald, of Macleod, and ample financial backing is available in case the legislature this year sees fit to grant the application, the promoters state.

Will Cost Half Million

Manitoba To Extend Highway To Ontario Border

Winnipeg.—Manitoba's road link, which will meet the trans-Canada highway expansion at the Ontario border, will cost the province \$528,197. Hon. W. R. Clubb, Minister of Public Works, told the legislature. The road construction of which will start in the spring, starts from the Whitemouth River, near the village of Whitemouth, and will follow the general direction of the Canadian Pacific Railway tracks to the Ontario border.

Mistakes Poison For Water

Young Chemist Dies Few Minutes After Drinking Fluid

Vancouver.—Hugh Chester Bell, youthful chemist, mistook a glass of poison for water in his office here, drank it down and died a few minutes later. An emetic administered by the stricken man called to his aid, failed to take effect and he died before a doctor could reach him. The deceased, an Oxford University graduate, had arrived in Vancouver only 15 months ago from England. He is survived by his wife and one child.

CONFERENCE TO MEET IN LONDON SEPTEMBER 30

London, England.—Prime Minister MacDonald told the House of Commons that the next meeting of the Imperial Conference will be held in London this autumn. The date for the opening meeting was fixed for September 30.

Ottawa.—Particular interest attaches to the announcement from London that the Imperial Conference will be held this autumn, in view of election possibilities. It has been rumored on a number of occasions that the Canadian Government would go to the country this fall, but announcement of the conference casts doubt upon such forecasts.

It is understood here that not only will there be an Imperial Conference, but that an Imperial Economic Conference will take place at the same time. The presence of the Prime Minister will be essential in London. Consequently, if an election is to take place this year, it must be before the opening date of the conference, or after the conference is over. The latter would mean a pretty late election date.

There is no indication at present of what particular subjects Canada will desire to take up at the conference. These will be the subject of much consideration and discussion between now and October. With parliament in session, the Prime Minister will have an opportunity to hear what members from different parts of the Dominion have to say on matters of Empire interest before he departs for London.

MORE INTENSIVE PRODUCTION IS CANADA'S NEED

Regina.—The paramount need for people in every part of the British Empire to adopt a policy of buying home products first, Empire products next and foreign products last, if the Empire is to survive the present period of distress and competition, was portrayed vividly and statistically to the Canadian Club by W. A. Wilson, a former Regian, who is now Canada's agricultural representative in London, and a member of the Empire Marketing Board.

He referred to the proposals for preferential trade within the Empire and to Lord Beaverbrook's crusade for free trade within the Empire, without taking sides for either proposal, save to point out that Lord Beaverbrook's slogan was not to be taken too literally in the British market, as his aim was to get the delegates to the forthcoming economic conference in a frame of mind for action, to work an effective scheme.

Pointing to the great need for intensified production and the opportunity for Canada in the British market, Mr. Wilson pointed out that Great Britain, in 1928, imported 990,000,000 lbs. of bacon, of which only 8.4 per cent. came from Canada; 685,000,000 lbs. of butter, of which 0.0 per cent. came from Canada; 337,000,000 lbs. of poultry, of which only 0.0005 per cent. came from Canada, and 265,000,000 dozen eggs, of which only 2.2 came from Canada.

Search In North Ended

Body Of Elison Found In Wreckage Of 'Plane

Fairbanks, Alaska.—The body of Pilot Carl Ben Elison was found in the wreckage of his plane, 90 miles southeast of North Cape, Siberia. Pilot Joe Crosson has radioed from the fur-trading ship "Nanuk," at North Cape.

Elison and his mechanic, Earl Borland, were lost November 9 last, while flying from Teller, Alaska, to the "Nanuk." Borland's body was found first.

Crosson mentioned that Elison had been killed instantly as had Borland. He said the bodies of the two fliers would be taken to Fairbanks as soon as possible.

"The fliers' plane crashed in the fog while Elison and Borland were on a flight to the "Nanuk," a fur trading ship inbound here. The wreckage was located on January 25 by pilots Joe Crosson and Harold Gillan, who had conducted numerous scouting trips from the "Nanuk."

The plane was torn asunder by its impact with the earth, the various parts of the craft being scattered over a wide area. The motor, near which Borland's body was found, was hurled 100 feet beyond the fuselage, while one wing was broken off 200 feet from where the main portion of the plane came to rest.

Britain's New Auto Laws

One Provision Is To Increase Penalties For Dangerous Driving

London, England.—Miss 1930, with her modern leanings, will find no difficulty in complying with the order compelling motor cycle pillion passengers to ride astride, which is one of the provisions of the road of the transport bill, on which second reading was moved in the House of Commons by Herbert Morrison, the Minister of Transport.

Other provisions of the bill abolish the speed limit for light motor cars, increase the penalties for dangerous driving, fix 16 years as the minimum age of ordinary automobile drivers and call for the age of those driving public service vehicles; lay down a maximum number of working hours for drivers of heavy vehicles and enforce compulsory third-party insurance.

Increase In Gold Reserve

Ottawa.—Canada's gold reserve is gradually creeping up. The circulation and specie report, released from the Department of Finance recently, as of January 31, shows that the gold held by the Minister of Finance against note circulation and government saving bank deposits is \$65,229,753.22.

Would Improve Park

Prince Albert.—The Saskatchewan Trustee Convention has unanimously urged upon Premier King the necessity of making provision for immediate developments in Prince Albert National Park to make it fully available for tourists and visitors this summer. A telegram to this effect has been dispatched to Ottawa.

NOTES AND COMMENTS

Coal will always be a basic necessity for industry and for heating purposes. Of that there can be no question. It has competition in fuel oil, but for heating homes and buildings in the Canadian climate, though natural gas and electricity may be used in mild seasons, coal will continue to hold its place. No matter how cheaply electricity is sold, its cost for heating is too costly compared with coal. There are exceptions where coal is at present superseded largely by gas, where the supply of the latter is easily obtained and distributed, but speaking in general terms, the demand for coal will steadily increase with the natural increase in population and industrial development.

At present the coal industry is suffering from depression, and the steam coal mines have been very quiet for eight months. This condition has been accentuated recently in the Crows Nest Pass area by the curtailing of output of the Crows Nest Pass Coal Co. at Fernie.

The Great Northern, a United States railroad, a very large consumer of coal from this company, has put into operation a number of oil-burning engines, which is given as the principal reason of the decision of the company to discharge over 300 miners, with no assurance to those at present employed as to how long work will continue.

On the face it indeed looks dark for the coal industry. Searching around for some reasons why fuel oil has superseded coal, one that stands out prominently is that those interested in production and sale of oil have experimented and spent considerable sums in encouraging the building of engines specially designed for the use of fuel oil. That fuel oil cannot entirely supersede coal for steam purposes was demonstrated by an American railroad company which recently designed a particularly large locomotive to burn low grade of fuel which was easily obtained in the territory in which this huge locomotive was to operate.

There may be districts where oil is more economical and again there are districts where it is far more economical to use coal. The distance the fuel has to be hauled is a factor apart from the actual cost of operating locomotives by oil or coal.

But admitting that coal has a serious competitor in fuel oil, one may well ask the question, is the same amount of energy and research being expended in finding more economical methods of using coal as in developing the use of fuel oil? Some experiments have been carried out, and pulverized coal has been used with success, showing very economical operation. It has been used on steamships and in stationary power plants, but apparently no advance has been made in developing its use for railway locomotives.

To the lay mind it would appear there is equally as good a field for development for the use of pulverized coal in this direction as for fuel oil, and the interests most concerned in promotional effort along this line should be producers of coal.

Oil wells, like coal mines, cannot continue to put forth their product for ever. The day will come when oil production in fields that are at present easily accessible will be greatly diminished. History of oil fields in Canada has proved this. The same holds good of the United States oil fields.

It will also be necessary as time rolls on to utilize a great deal of the waste coal that is now dumped at the mines. Transportation costs, efficiency in operation of mines and other factors in a highly competitive world will make it necessary. Metallurgical mines in British Columbia at one time dumped thousands of tons from which in later years valuable metal has been extracted.

Some take a pessimistic view, and say that the day of coal is practically finished. The day of coal can never be finished. Nature is a wonderful provider for the wants of man. There is everything provided to sustain life, and coal has been and always will be one of the basic necessities of life.

Improved and more efficient methods for its use will be developed not from choice, but because of necessity, for necessity has always been the mother of invention.

Now that a sixteenth century bathtub belonging to the second Duke of Florence has been discovered in a completely equipped bathroom of the Palazzo Vecchio, we hope some interested archaeologist will push the matter a step further and tell us whether its occupant sang in it... Christian Science Monitor.

Here and There

Though the popularity of Old Dobbin continues to hold a prominent place on the farms of Canada, the "Iron Horse" or mechanical farm implement is advancing in favor, particularly in the Prairie Provinces. Estimates give a total of 66,239 tractors in operation on the 248,162 Prairie farms, 14,557 of which were bought last year.

Gross tonnage of vessels entering Honolulu harbor has increased from 285,218 tons annually to 717,286 in the last ten years, according to official figures released late in December. The Canadian Pacific inaugurated direct Vancouver to Honolulu service December 13 with the palatial express liner Empress of Canada. Other company vessels on this run will be the Empress of Russia, Empress of Asia and Empress of Japan, the latter recently launched.

In the province of Quebec there is now a total length of 12,502 miles of paved, macadamized and gravelled roads which is 38 per cent of the total in the province. In 1929 the Provincial Department of Roads maintained 10,195 miles of improved roads, constructed 1,581 miles of new road, 187 bridges and culverts and eliminated 16 grade crossings and 23 sharp corners and curves.

The Department of Immigration and Industry of the New Brunswick Government is getting ready for the reception of 100 British and numerous Scandinavian families to be brought out in April. The department is also preparing to superintend the departure of his return from Montreal to Saint John, following conference there.

"By careful selection of the character of colonists we can place in Canada we help in the development of the Dominion," Col. J. S. Demain, former chief commissioner of Colonization and Development, Canadian Pacific Railway, and now acting in an advisory capacity to the department, said on sailing from Saint John recently on a trip of inspection to Great Britain and Europe. He will discuss certain agreements between the British Government and the C. P. R. regarding movement and placing of British colonists in Canada.

Canadians drink nearly 100 per cent more milk than they did in 1921. The per capita consumption is about one pint per day, or 470.8 pounds, per year, compared with about one-half pint per head of population in 1921. The milk consumption in the United States is about 458 pounds per capita per year or less than a pint per day per person. Canadians eat more butter than the people of any other country in the world—23.1 pounds per capita per annum—an increase from 22.79 pounds since 1921. Their appetite for ice cream has increased from 5.26 pints in 1921 to 7.04 pints in 1928, and the per capita consumption of cheese has risen from 2.51 pounds in 1921 to 3.54 pounds.

Use Printed Envelopes

The post-office advises people to place their name and address on the outside of letters and parcels. Undeliverable articles without the name and address of the sender on the outside have to go to the dead letter office, causing delay and inconvenience.

Use printed envelopes, which may be purchased at The Journal office.

Donated Prizes for Whist Drives

The executive of Coleman Boy Scouts express their thanks to the following for their generosity in donating prizes for their whist drives, the proceeds of which will be used to purchase uniforms:

Coleman Hardware Co., R. F. Barnes, Coleman Cash Grocery, Chas. Nicholas, A. Knowles, S. Janosik, G. Pattinson, G. Neil, Palm Confectionery, Coleman Meat Market, Mr. Shields, Fred Antrobus, H. C. McBurney.

PERSONAL STATIONERY

The Journal office will print 100 good quality envelopes for \$1.00, or 100 letter size paper for \$1.00, printing limited to three lines consisting of name and address. Cash at the time of ordering. Leave an order for your personal correspondence.

MAYFAIR

Monthly
\$3.00 one year
\$5.00 two years

Mayfair reflects from all over the world and all through Canada the currents of Canadian social and sports life which converge in Mayfair. It is the magic mirror of moving life, ever scintillating days, interesting people, and the changing panorama of vivid events.

Why count your pennies if you throw them away?

Could I have bought the same article elsewhere for less?

Won't some other make prove more satisfactory?

Isn't there some other product that will suit me better?

Unless you can say "No" to these questions, about every purchase you make, there's a good chance that you are not getting the most for your money.

To get the most from every dollar of the family income---for food, clothing, furnishings and the rest---you must know what you want before you go to buy.

Read advertisements. They will keep you from throwing away your pennies---and your dollars. They will help you to live better and dress better at less cost.

Advertisements are the latest news of what the manufacturers and merchants are doing for you. They are interesting and instructive. The advertisements in this newspaper are the records of business progress.

Advertisements point the way to economical buying

KIDNEY TROUBLE BACKACHE VANISHED

"This magic," says Mr. J. H. M. and Mrs. M. H. M. of the city of London, Ontario, "has cured me of my kidney trouble, backache, and all the ailments that have troubled me for years. I feel like a new man now."—J. H. M. and Mrs. M. H. M. of the city of London, Ontario.

WORLD HAPPENINGS BRIEFLY TOLD

Moscow authorities have decreed that all restaurants in the city should have no meatless days each month. It being hoped thus to save both meat and fuel.

The giant British dirigible, R-100, is undergoing tests with the possibility that she may make a flight to Canada towards the end of April or the beginning of May.

Aeroplane service carrying passengers between St. Paul, Minn., and Winnipeg was inaugurated February 17. The passenger service will be operated over the week-end only.

Canadian silver fox pelts are finding a ready market in Great Britain. It is stated by Lt.-Col. D. A. Mackinnon, D.S.O., of Charlottetown, P.E.I., one of Canada's principal silver fox breeders.

Orphaned by an air crash in Texas, recently, in which his father and mother were both killed, 16-month-old Robert Gray, Jr., must return 10,000 miles to his home in the United States immigration laws.

Only 2,400 Belgians were taxed on incomes of more than \$7,000, according to figures just published. There are 9,300 people with incomes ranging from \$3,000 to \$7,000, while 3,348,700 had incomes of less than \$750 a year.

Madame Louise Kirby Lunn, former British consort, is dead, after a long illness. She sang at the Covent Garden opera house in London, England, at the Metropolitan opera house in New York, and in Budapest, Hungary, and Germany.

"I believe Canada, before many years, will be the first of the Dominions to evolve into a great manufacturing country," declared the Right Hon. Stanley Baldwin, ex-premier and chief of the Conservative opposition, at his final speech in Belfast.

With the intention of securing the same control over real estate dealers and their transactions as they now enjoy in respect of stockbrokers, the Ontario Government, at the present session, will introduce new legislation to prevent frauds against the public.

Will Try New Process

Canada To Experiment With Freezing Fish In Transit

Experiments in the freezing of fish in transit by the steamship process will be conducted by the Department of Fisheries early this summer. It was learned at Ottawa. It has been found in the United States that this method of refrigeration is eminently satisfactory in the transportation of pre-chilled fish, but the Canadian Department desire to go a step further and ascertain if it is equally as effective for fish that has not been pre-chilled.

Should the experiments prove successful it would mean a saving of about 12 1/2 per cent. in refrigeration space, with a consequent increase by that proportion in the packing of fish cargoes by rail.

Means Plenty Of Work

Recording Australia's Rainfall Is Considered Quite a Task

Australia has an area of 3,000,000 square miles, and the task of recording the rainfall is one of considerable magnitude. Throughout the continent there are no less than 6,000 rain gauges, 900 of which are operated by private citizens, while all unpaid weather observers. In some parts of Australia the observers have a busy time in the rainy season. In eastern Queensland early this year as much as 10 inches of rain were recorded in 24 hours.

Steward (to sea-sick passenger): "Feel like a cup of tea, sir?" Passenger: "Do I look like a cup of tea you idiot?"

Of Historic Interest

Some Inscriptions Which Cannot Be Classified As Vandalism

"Vandalism!" exclaim most people when anyone defaces a monument or stone or tree with any sort of inscription. Of course, the comment is usually justified, but there are exceptions. Such scribbled remarks by "vandals" who lived 2,000 years ago or more have often shed light on the ways of ancient inscriptions. And there are some modern inscriptions of this kind which may prove interesting to the archaeologists of the future. Certainly, these "writings" prove that human nature has not altered much through the centuries. Among some of them left on the columns of an ancient Egyptian altar, at Saggara, by Australian troops who served in the War, is the following: "I am the only survivor of my company which fought in Gallipoli, John Smith, Melbourne, 1917." An Egyptian hieroglyphic recently uncovered is worded in almost the same way: "I am the only survivor of my company which fought in Punt, and I have come to worship at the temple of my fathers." The Egyptian soldier who signed it lived over 3,000 years ago.

Subsidies For Air Transport Urged

Would Put Passenger Rates On Par With Railway

Subsidies for aerial passenger transport were urged by Major General I. H. Macbride, president of the Aviation League of Canada, in a speech at Montreal. In Europe, where such subsidies are paid, aerial passenger rates were on a par with railway rates whereas in Canada the air rates are three times as great as those offered by railroads.

For this reason the passenger branch of air transport was not progressing. General Macbride urged the formation of a branch of aviation to be known as aerial service in which all companies would co-operate to eliminate wasteful competition and work for greater development of the industry.

Busy Construction Season

Saskatchewan Awarded Largest Number Of Contracts During Year 1929

The Saskatchewan Western Producer notes that, "with a total of 2,327, Saskatchewan took the lead among the four western provinces for the number of construction contracts awarded during the year 1929, according to figures reported to the Saskatchewan Department of Railways, Labor and Industries. This compares with British Columbia's 2,275, Alberta's 2,055, and Manitoba's 1,658. The value of the permits in the province was \$34,184,300, or an increase of \$14,000,000 over the 1928 total."

Winnipeg Newspaper Union

Fashion

(By Annebelle Worthington)

WHAT LENGTH SKIRT?

It all depends on the style. In evening wear, dresses are quite long, often to the ankle. But where the style dips in the back, the front hem may be considerably higher. Afternoon dresses are from three to six inches below the knee, depending on the type of frock whereas sports' dresses are but slightly longer than last year.

In this important detail, as shown in many others, it would be best for you to follow an authoritative guide. We recommend our New Spring Fashion Magazine which shows the different types of styles, the new lines and length, new fabrics, etc. Send today 10 cents for your copy, addressing Fashion Dept. (Insert name of newspaper here and regular pattern department address).

WHY SUFFER FROM YOUR LIVER?

Why be handicapped with unwholesome blotches on the face, eyes with yellow tinge and that tired and languid feeling? This indicates a torpid liver. Headache, Dizziness and Biliousness surely follow. You must stimulate your liver, start the bile flowing with Carter's Little Liver Pills. They also act as a mild laxative, purely vegetable, free from calomel and poisonous drugs, small, easy to swallow, and not habit forming. They are not a purgative that cramps or pains, unpleasant after effect following, on the contrary a good tonic. All Druggists sell 25c and 75c red packages.

Grain Estimates Sound

Says Every Bushel Of Wheat Now In Storage Will Be Needed Before New Crop Harvested

E. J. Garland, M.P., for Bow River, Alberta, declared in an address given at Stratford, Ont., that the Argentine wheat crop is not the only factor contributing to the present condition of the wheat market. Speculation in grain is one of the highest factors, he declared, and he envisaged the day when the League of Nations will be called upon to deal with short selling in food commodities.

Canada has positively no need to be alarmed at present, he said, because there was nothing to be alarmed about. The wheat pool in the west knew what it was doing and every pound of Canadian wheat now in storage would be needed before this year's crop is harvested, he declared.

"If the wheat stored now in the pool at the present prices it would bring two hundred million dollars less than last year," he stated. "That would mean, in effect, two hundred million dollars less purchasing power."

For every cent wheat rises in price it will mean two and a half million dollars added to the purchasing power of Canada next year.

"The transportation companies," he added, "have nothing to worry about because they will get the grain when it begins to move."

Recipes For This Week

(By Betty Barclay)

"LEMON-NAISE" RECIPE

(Makes about 1 quart)

2 egg yolks.
1 teaspoon salt.
1/4 cup lemon juice.
1 quart salad oil.
Break the egg into a bowl. Add salt and stir well. Add half of the lemon juice and mix well. Add oil, slowly at first until 1/4 cup is added; then the oil may be beaten in rapidly. When the dressing becomes thick add the remainder lemon juice and proceed with remainder of oil.

This dressing may be varied for different salads. For a sharper dressing, add 1/4 extra cup of lemon juice before serving. This makes a thin dressing.

For a meat salad, add 2 teaspoons dry mustard. For a fruit salad add 1/4 cup whipped cream and 1/4 tablespoon lemon juice to 1 cup mayonnaise.

ORANGE JELLY

6 oranges.
3 lemons.
Cold water.
Sugar.

Cut oranges and lemons in very thin slices, discarding seeds. Measure and for each cup add 1/2 cup of water. Bring to boiling point and boil one hour. Let drain in jelly-bag overnight. Measure juice and for each cup add one cup sugar. Boil until a little dropped on a cold saucer forms a jelly-like clot. Turn into sterilized jars and when cold cover with paraffin.

Saskatchewan Dairy Association.

1929 Was Generally A Good Year In Dairy Industry

In his presidential address to the Saskatchewan Dairy Association, B. F. Grunden, of Estevan stated that 1929 had been, generally, a good year in the dairy industry, large increases in production being reported practically throughout the whole year. The value of the dairy products was more than \$1,000,000 above that of the year before.

Chim Tree Is Tomb

An oak tree, 1,000 years old, near the village of Noebditz, is claimed to be the tomb of the famed German poet and statesman, Hans von Thun. The tree had a large hollow in its trunk and in this hollow, born in 1924, Thun is supposed to have been interred. The cavity has been filled up with concrete.

There's nothing you can do to defend yourself when a handit says, "Throw up your hands," or when a grocer says, "Eggs are eighty cents."

Guarded By Invisible Ray

Money Paid Values Can Be Protected By A New Scientific Device

A fifty-dollar bill guarded by an invisible ray, was offered to any person who can pick up the money without making the ray sound the alarm.

The ray was set up at a meeting of the New York Illuminating Engineering Society in the Westinghouse Lighting Institute by James L. McCoy, research engineer of the Westinghouse Lamp Company. It was announced that the money would remain indefinitely behind the ray awaiting all comers, or until someone solves the scientific riddle.

The bill was put in a five-foot safe with the door closed, but unlocked. Somewhere around the safe, probably across the door, an ultra-violet ray is placed. It is harmless. It cannot be felt by human touch. It is invisible either in darkness or light. It "shines" so to speak, upon a photo-electric eye some distance away. Anyone attempting to pick up the bill interrupts the ray, thereby casting the unseen "shadow" upon the mechanical eye. Thereupon the eye loudly goes "bing," ringing a burglar alarm.

"With these rays," said Mr. McCoy, "it will be possible for jewelers, bankers and other custodians to add greatly to the security of their valuables. It can be made impossible for an intruder to move about without detection, as the rays can be placed at various angles in a room. They may operate a tear gas barrage, or set off a silent alarm. They can be projected far enough to protect the entire mouth of a harbor in wartime with warning signal bell."

Name Is Exclusive

Ontario Has Only "Brookville" In The West

A gentleman once stepped into a post office in London, England, to which the cable office is attached, and wrote in his best hand "Brookville, Canada." A pair of twinkling eyes looked up at the chap, and the young clerk deliberately scratched out the word "Canada." She inquired if the gentleman lived in Brookville. The answer was "Yes," and she said, "Well, have you never heard that there is no other Brookville in the world but this one in which you live, and no matter how hard we tried, this message could not be sent to any place but your own town?"

A Nations Prosperity

The keynote to prosperity is simply this—that prosperity is only regarded as prosperity if it is shared by the whole of the people. A nation is not prosperous if its workers cannot buy the goods they themselves produce, if profits merely go into the pockets of a few privileged men.

Manitoba Honey

Manitoba produced 6,899,399 lbs. of honey last year, 15 individual operators each produced a carload or more. Manitoba exhibitors secured three first places out of four classes entered at the Royal Agricultural Fair, at Toronto.

SUNDAY SCHOOL LESSON

MARCH 2

JESUS TEACHING ABOUT HIMSELF

Golden Text: "Come unto Me, all ye that labour and are heavy laden, and I will give you rest."—Matthew 11:28.

Lesson: Matthew 11:2 to 12:50. Devotional Reading: Isaiah 61:1-10.

Explanations and Comments

What Jesus Said About Himself To John the Baptist, 11:2-6.—John the Baptist had been imprisoned at Machabrus by Herod, and when his disciples came and told him what Jesus was doing, he sent them to Jesus to ask, "Art Thou He that cometh or look we for another?" "He that cometh," a phrase for the Messiah, derived, it is believed, from Psalm 118:28. As Dr. Bruce comments, it was John's first to be a prisoner for some time, long enough to develop a "prison mood." When John was free he had been the first to recognize that Jesus was the Coming One, the Messiah, but in his imprisonment he had grown doubtful, for to that caged eagle Jesus seemed too mild in His dealings with men to be the expected saviour, the Christ as had pictured Him.

There is only one Man with whom it is always high-water; at all others have ebbs and flows in their religious life, and variations in their grasp of truth.—Alexander Macbride. John's disciples found Jesus busy with the very work that had disappointed John. The sick were coming to Him, and He encouraged their coming; to the poor He proclaimed the gospel, but uttered no word about the fire or the ax of which John had spoken (Matthew 3:10-12). Jesus stopped His work to answer John's messengers. "Go and tell John," He said, "the things which ye hear and see: for the Son of Man must first suffer, and be killed, and the dead are raised up, and the poor have good tidings preached to them."

The fulfilment of the prophecy as to the Messiah, in Isaiah 35:5, 6; 61:1. "Tell your story over again, and remind him of those prophetic texts. Draw him the two together and let him draw his own conclusion." It was a virtual invitation to John to revise his Messianic idea, in the hope he would discern that after all "love" was the chief Messianic charism.—A. B. Bruce.

The miracles were Jesus' credentials. They proved His divine power, and they revealed His divine sympathy. They were "signs," as they are called in the Fourth Gospel, recorded "in order that ye may believe that Jesus is the Christ, the Son of God, and that believing ye may have life in His name." "To me these acts of healing and restoration, whether of the soul or of the body, are not incredible. I do not regard them miracles in the sense of the laws of Nature, but as manifestations of spiritual power, and as wrought through knowledge of spiritual laws in the obscure domain where soul impinges on power. Almost as important as their truth is the disposition of Jesus revealed in them."—Dean Worcester.

There was no word of rebuke for John, but this gentle rebuke, this message was added: "And blessed is he who ever shall find no occasion of stumbling in me." Happy is the one who is not disturbed by the methods I use, by My ways of fulfilling My mission.

Had Time To Grow

Deliberate Old Lady (who has been taking a lot of time in selecting her purchases): "But I don't think this is lamb. It looks to me like mutton." Exasperated Butcher: "It was lamb when I first showed it to you, ma'am."

NO MORE ECZEMA

Itching Ends In 1 Minute
"Eczema," says Dr. J. H. M. and Mrs. M. H. M. of the city of London, Ontario, "has cured me of my eczema, itching, and all the ailments that have troubled me for years. I feel like a new man now."—J. H. M. and Mrs. M. H. M. of the city of London, Ontario.

Some Figures About Canada

Few Great Vastness Of Britain's Largest Overseas Dominion

Canada is Britain's largest overseas Dominion; bounded by three oceans. Coastal distances (per Canada Year Book): Pacific Coast line, 7,160 miles; Hudson Bay coast line mainland, 6,000 miles; Atlantic coast line, 5,000 miles—Total 18,160 miles. Canada's greatest width in due east and west direction approximately 3,500 miles; greatest distance between southern and northern northward land extremities, approximately 2,870 miles. Canada-United States boundary, 3,895 miles long; 1,787 miles by land, 2,197 through water. Canada is larger in area than United States with Alaska by 42,912,000 acres.

Largest Elevator At Any Seaport

Mammoth Alberta Wheat Pool Elevator In Operation At Vancouver

The largest terminal grain elevator at any port on the seven seas has recently been put into operation at Vancouver by the Alberta Wheat Pool. This elevator has a capacity of 5-150,000 bushels and is known as Vancouver Pool Terminal No. 1.

The port of Vancouver is now an important grain shipping centre. During the crop year ended July 31, 1929, shipments of grain totalled 96,138,218 bushels compared with 79,714,512 bushels for the year ended July 31, 1928, and 34,415,653 bushels for the 1926-27 crop year.

Some Brilliant Ideas

Even the newspapers are unable to reach 100 per cent. of the university students who are burning the midnight oil in quest of higher learning. In reply to a recent examination question regarding General Smuts, several students in one university said it was a disease attacking wheat, while one bright scholar confided that General Smuts were "stories that one should not tell."

Among gypsies, children born on Christmas Day are said to have the power of divination and ability to avert the "evil eye."

A device for removing ashes direct from houses is used in New York City.

Make Your Windows Pay

Invest in WINDOLITE Windows and you will be repaid a hundredfold in the health of your Poultry and Live Stock

WINDOLITE

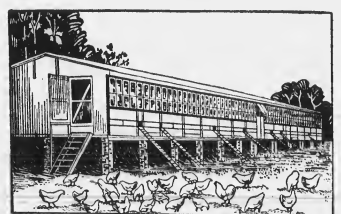

THE ORIGINAL GLASS SUBSTITUTE

MADE IN ENGLAND SINCE 1917 ON ORIGINAL PATENTS

This unbreakable glass substitute is light and flexible, easy to cut and fit, withstands extreme changes in temperature, keeps out cold and wet, but

allows the full sunlight to enter, including the health-giving Ultra-Violet Rays, which do not penetrate ordinary glass.

CUT DOWN YOUR LOSSES BY INSTALLING WINDOLITE

USE WINDOLITE IN BROODER HOUSES LAYING PENS DAIRY BARNs SUNROOMS ETC.

Canadian breeders of poultry and livestock are finding Windolite a most satisfactory and profitable investment. Young chickens and turkeys are entirely free from leg weakness and disease and will thrive in confinement under Windolite. Windolite comes in rolls any length, but 36 inches wide only.

Mrs. C. J. Devine visited friends in Lethbridge and Calgary last week.

Mrs. L. Yonker, of Lethbridge, is the guest of Mrs. A. Dewar this week.

Mr. Clarke, who has been a patient for some weeks, is making steady progress towards recovery.

C. J. Tompkins, representing the Sun Life Assurance Co. was a visitor in town yesterday.

The hall decorations were very nicely arranged by "Bud" Clarke and his faithful partner "Buck" Eysackers.

The Blairmore Enterprise last week stated that P. M. Christopher, M. L. A., and family, intend to move to Edmonton on March 1.

The Junior W. A. of St. Alban's will hold a whist drive in the parish hall on Mon., March 3, in order to boost their funds.

"Smile and the world smiles with you, weep and you weep alone!" 'Tis an old proverb, but as true as ever.

Mr. O. E. S. Whiteside left on Sunday night on a business trip to Winnipeg and Ottawa, and expects to be away for about two weeks.

Mr. G. Kellock was in Calgary last week at a meeting of mine operators to discuss the provisions of the new Mines Act.

Geo. Pattinson has been spending the past two weeks at Victoria, B.C., and expects to return by the end of February.

The Knights of Pythias entertainment committee announce a grand novelty dance on St. Patrick's night, Monday, March 17th. See posters.

Mrs. A. D. Currie and Annie Griffiths were delegates from Coleman Junior W. A. at the annual meeting of the Diocesan W. A. in Calgary last week.

Mrs. W. Hogan and children left on Sunday for South Sloon, B.C., to visit her parents, Mr. and Mrs. J. S. Rogers, and to attend the wedding of her brother Walter.

The local paper is a mirror of the community and business spirit of any town, and if the mirror does not present an attractive picture, so much the worse for the community. There must be co-operation.

Blairmore senior hockey team won the play off game against Lethbridge on home ice last Saturday night by a score of 3-2, and will play either at Calgary or Banff tonight (Thursday) and the second game will be played at Blairmore on Saturday night. Supporters of Blairmore team are confident of their winning the series.

Prize winners at the K. of P. whist drive on Feb. 22, were Mrs. Joe Emmerson, Miss Eileen Cousins and Mr. Alex. Balloch and Mr. H. Chamberlain. Winners of February Aggregate were Mrs. R. Morris 679, and Mr. Joe Janke 704.

The Communist meeting billed for last evening under the name of the Canadian Labor Defence League was not held, owing to the speaker, Geo. Drayton, of Vancouver, not appearing. Those in charge of arrangements could not give an explanation for his non-appearance.

Capt. Fowler and Lieut. Zoutendyk of the Salvation Army will spend the week end in Calgary attending the annual congress of the Young People's Corps, at which Commissioner Hoggard will be the leading speaker. Sunday services will be held here as usual.

Mr. Melville Anderson, of Anderson & McLean, sight specialists, of Calgary, announces next visit to G. R. Powell's, Coleman, Tuesday, Mar. 4th. 20 years experience in regular visits assure you of satisfaction in all optical work.

W. L. Peaker and B. J. Jarrett, of the firm of Peat, Marwick, Mitchell & Co., Calgary, are here making the annual audit for the International Coal & Coke Co., prior to the annual meeting in March.

The Welsh Imperial Singers are billed to appear in Blairmore Open House on March 19 under the auspices of the Knights of Pythias. The proceeds are in aid of the Woods Home, Calgary.

Mrs. A. E. Guerdard and Miss Virginia Dalgleish arrived this morning from Fort Frances, Ont., to reside in Coleman. Mr. Guerdard arrived a month ago, to take over the personal management of the Coleman hotel, which he purchased last year. Mrs. Guerdard was formerly engaged in newspaper work with the Fort Frances (Ont.) Times, and was in charge of the advertising department.

Creditors of Percy Locke have been informed by the police that the course of action to pursue to recover the amounts owing by him is to secure an order from a magistrate for the garnishee of his wages wherever he may be working. It is the intention of some to whom he owes money to take action to secure payment of the debts. To one tradesman he wrote a letter stating he would call in two days later and settle his bill, but in the meantime he left town. When last heard of he was in Calgary.

This is the latest official photograph of the Prime Minister of Canada, Hon. W. L. Mackenzie King. Like Hon. R. B. Bennett leader of the Opposition in the Federal House, and President E. W. Beatty, of the C. P. R., Mr. King is a bachelor.

The Ladies Guild of St. Alban's church held a very enjoyable bridge party in the parish hall last Thursday evening, at which was attended by about sixty people. The prizes were won by Mrs. A. F. Short, Mrs. Flynn, Mrs. Snowden, (playing as gent) and W. Gate.

Minerva Chapter, Order of the Eastern Star, will hold a whist drive and dance on Thurs. Feb. 27 in the Oddfellows hall, commencing at 8 p.m. Masons and families and Eastern Star members and friends are invited. Altermatt's orchestra. Admission 50c each. (adv. 2)

A basket social and dance is to be held in the Polish hall on Mon., Mar. 3rd, for which tickets are being sold at \$1.25 for lady and gent.

Janitor Wanted

Living quarters, light and water free in exchange for services as janitor of the Oddfellows Hall. Applications to be made to J. H. Boulton or Constable Houghton.
